Purpose

This document provides the preferred citation formats for the **AI Governance Framework Series** and its companion frameworks.

Readers, educators, researchers, and institutions are encouraged to use these citations when referencing the frameworks in scholarly publications, institutional policies, teaching materials, presentations, or professional development resources.

Citation Style

The following references are presented in **APA 7th edition**.

Users employing other referencing styles (e.g., Harvard, Chicago, MLA, Vancouver) should adapt the formatting accordingly while preserving the publication details.

In-Text Citation Examples

Narrative citation

Asghar (2026) argues that responsible AI governance depends upon the interaction of transparency, intellectual responsibility, and appropriate educational use.

Parenthetical citation

(Asghar, 2026)

Citing Individual Frameworks

Where discussion focuses on a specific framework rather than the series as a whole, cite the relevant companion framework directly.

For example:

The Assessment Authenticity Checklist provides practical guidance for designing AI-resilient assessments (Asghar, 2026).

Citing the Complete Framework Series

Where discussion refers to the conceptual model or integrated governance approach represented by the complete publication suite, cite the framework series rather than an individual document.

For example:

The proposed institutional implementation model is based upon the AI Governance Framework Series (Asghar, 2026).

Future Citation Updates

Future editions of the framework series may include:

- Digital Object Identifiers (DOIs)
- ISBN (if published as a collected volume)
- Publisher details (if externally published)
- Repository identifiers
- Updated version numbers

Readers should ensure that citations correspond to the edition consulted.
